FIVE FLUENT FACTS

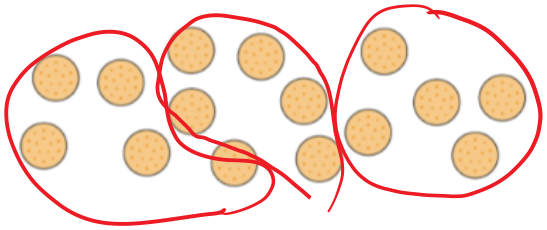
Double 8 = 16	Double 5 = 10	Half 60 = 30	Half 44 = 22	Half 86 = 43

PROCEDURAL PRACTICE

1) There are eight socks. If I put them into pairs, how many pairs will there be?

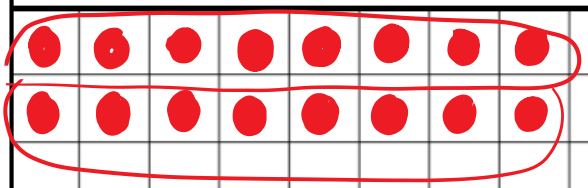
4

2) There are fifteen biscuits. If I put them into bags of five, how many bags will I have?



3

3) 16 ÷ 2 =



8

4) 65 ÷ 5 =

13

5) 60 ÷ 10 =

6

6) 5 ÷ 5 =

1

BRAIN TEASER

Jasmine is answering this question:

10 children share 40 stickers between them. How many stickers does each child get?

Jasmine writes

4 x 10 = 40 so 10 ÷ 40 = 4

Is she correct? Explain.

SHOW YOUR WORKING...

No it should be

40 ÷ 10 = 4 because 40 stickers are shared between 10 children
