YEAR 2

DAILY MATHS

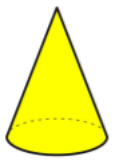
09/07/2020

FIVE FLUENT FACTS

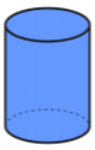
Circle the even numbers			Circle the odd numbers	
34 , 76 , 45	78 , 99 , 100	57 , 91 , 20	20 , 43 , 21	1 , 45 , 30

PROCEDURAL PRACTICE

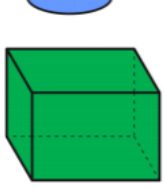
1) Name the shapes



_____



_____



_____

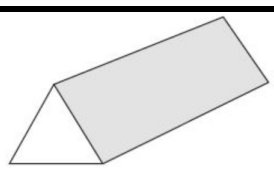
2) Match the shape to the description.

triangle	has 8 vertices
square	has 3 sides
octagon	has 4 right angles
circle	has no vertices

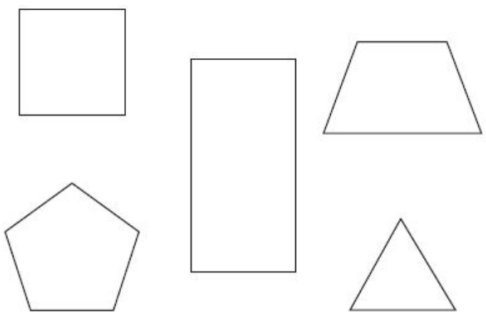
3) Tick the two correct statements.

- ☐ A square has sides of equal length
- ☐ A square has curved sides
- ☐ A square has lines of symmetry
- ☐ A square has five sides

4) Here is a prism.



Tick all the shapes that are faces on the prism.

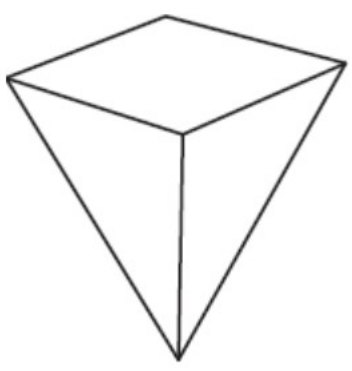


5) I am thinking of a shape. It is flat, it has eight corners and eight sides.

What is the name of the shape?

_____

6) How many vertices does a square based pyramid have?



BRAIN TEASER

Sven thinks all these shapes are cylinders. Is he correct? Explain your answer.
